# ELEGANCE AND EFFICIENCY

---

inFINE the perfect solution for an extraordinary shower experience with an eye on saving water.

Made with high-quality materials to ensure superior performance without compromising water efficiency.

# WATER SAVING

---

The priority of saving water is at the heart of our design.

InFINE uses only 1,5 gallons of water per minute, a significant reduction from traditional showers that can consume over 4 gallons per minute.

Your choice of inFINE reflects your commitment to a more sustainable future.

ONLY  **1,5 GALLONS**  
PER MINUTE

# SOPHISTICATED DESIGN

---

inFINE is distinguished by its sleek and modern design that can add a touch of style to any outdoor space. inFINE not only offers a contemporary look but also enhances the atmosphere of your environment.

# CONVENIENCE AND SIMPLICITY

inFINE's inGENIUS® floor quick coupler offers extraordinary convenience. It in fact allows the shower column to be unhooked at any time, without the need to close the system, which remains constantly under pressure.

Installation and removal, i.e., coupling and uncoupling thus become extremely smooth and uncomplicated tasks that anyone can do!

# RAIN SPRAY STREAM

---

Thanks to the Neoperl Spray ITR aerator, the spray offers an exceptional flow of water, similar to a pleasant rain shower. The innovative silicone nozzles ensure a wide and gentle flow for an exceptionally comfortable experience.

The 53 spray nozzles are made of **soft silicone** and are easily cleaned by activating the spray and rubbing them with a finger.

These combined features make the Neoperl Spray ITR aerator not only a luxurious choice, but also a **practical solution** for daily maintenance and cleaning.

# DRINKING FOUNTAIN

---

Our inFINE outdoor drinking fountain is an element of the highest design, made from quality materials such as brass and steel.

This drinking fountain serves multiple purposes and is a practical, high-class solution for any outdoor space, enhancing your garden with a touch of unparalleled elegance and functionality.

The fountain's inGENIUS® quick-connect coupling ensures easy installation wherever you wish, and its versatility makes it a must-have for outdoor spaces.

Its elegance and functionality perfectly match the unmistakable style of the inFINE shower column.

Neoperl's CACHE® SLC® STD AERATOR is a component that combines design and practicality in an extraordinary way.

It is extremely easy to assemble, thanks to the included CACHE mounting key.

In addition, maintenance and cleaning are equally easy. Just run a finger over the aerator itself to keep it perfectly clean and functional.

# HARMONY AND FUNCTIONALITY

---

The decision to use a progressive mixer was the quintessential balance between functionality and sophistication. Designed with the utmost attention to detail, this component offers a practical solution with an elegant and sophisticated design.

The progressive mixer was conceived to simplify the adjustment of water temperature and intensity. Thanks to its advanced progressive technology, the perfect combination can be achieved with a simple twist, ensuring easy and intuitive operation.

Aesthetics is at the core of our design. The progressive mixer blends harmoniously with the inFINE shower column, bringing a touch of class to your outdoor space. Its elegance is expressed through clean lines and high-quality finishes.

In addition, the minimalist design results in the absence of external handles, as all controls are elegantly incorporated into the body of the shower column, ensuring a clean and seamless aesthetic.

Turning the knob clockwise takes you through the different stages of mixing, all the way to hot water.

MAKES YOUR HEAD SPIN...

LITERALLY

Our inFINE shower column features 350° spout rotation, which will literally make your head (and your shower mouth) spin with its technical versatility!

Now you can say goodbye to those hard-to-reach corners in the shower, thanks to this clever rotation that allows you to direct the flow of water exactly where you need it.

# BIG POTENTIALS

---

In the boating industry, the use of the inFINE shower column reaches its highest expression. Manufactured entirely in Italy from solid bar steel, it is ideal for withstanding the challenges of the sea.

The inGENIUS® quick floor coupling allows it to be instantly disengaged without the need to shut off the plumbing, making it extremely practical in situations where timing is of the essence. While underway, the inFINE shower column can be safely stowed in its dedicated bag, ready to spring into action when an ideal position is reached.

This adds a level of comfort and luxury to your boating experience. The ability to enjoy a hot and cold water shower at all times enhances the beach area of your yacht, providing unparalleled convenience for cleaning or relaxing in the sun.

inFINE proves to be an ideal companion to enrich every marine voyage!

# MODULARITY

---

The inFINE shower column is designed with a modular approach that makes it incredibly easy to manage.

Thanks to its removable and dismountable 3-part design, you can easily detach it for storage while boating or at the end of the season.

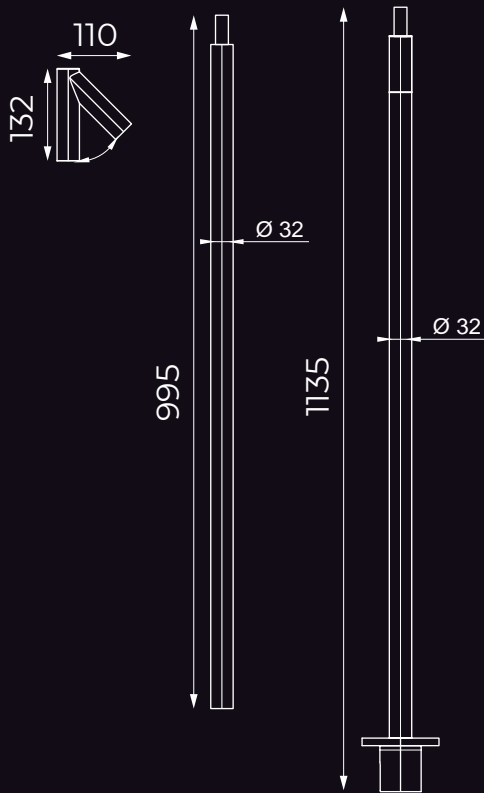

But that's not all. After removal, you can apply the finish end cap and have no protruding objects on the ground or open holes.

# PROTECTION IN SMALL SPACES

At the end of the season or while boating, the inFINE shower column stows easily in the padded storage bag, made of the highest quality water-repellent fabrics. This ensures complete protection during transport and storage.

When disassembled, inFINE requires very little space, allowing for easy transportation and maximizing the use of available space.

# AUGMENTED REALITY

Augmented reality is an innovative technology that overlays digital elements onto the real world through the use of mobile devices.

With the QR code below, our inFINE quick-release shower column leverages this technology to allow users to visualize precisely how the shower column will fit into their environment.

This innovative feature facilitates dialogue between customers and designers, eliminating uncertainties and enabling accurate customization of the installation, thus ensuring seamless integration of the shower column into any desired environment.

# OUTDOOR

---

The inFINE shower column is designed primarily for the outdoors. Whether you are at the pool, spa, on board a boat or yacht, inFINE always lives up to your expectations.

# VIBRANT AND EYE-CATCHING

---

The inFINE shower column is the design touch that will make your poolside space an oasis of elegance.

Its minimalist structure, crafted in vibrant colors of painted brass, transforms the outdoors into a vibrant and eye-catching environment.

The clean, sophisticated shape perfectly complements its surroundings. This is the place where design meets functionality, and where aesthetics and practicality come together in one.

# DOES NOT GO UNNOTICED

---

Place it wherever you wish, inFINE is sure to impress. The minimalist design and colorful finishes make it a design object in its own right!

# INDUSTRIAL CHIC

---

inFINE's silhouette in matte black painted brass blends perfectly with modern industrial style.

The minimalist design with no visible handles is a true tribute to modern aesthetics and innovation. All this allows you to enjoy the embrace of a soft, enveloping spray.

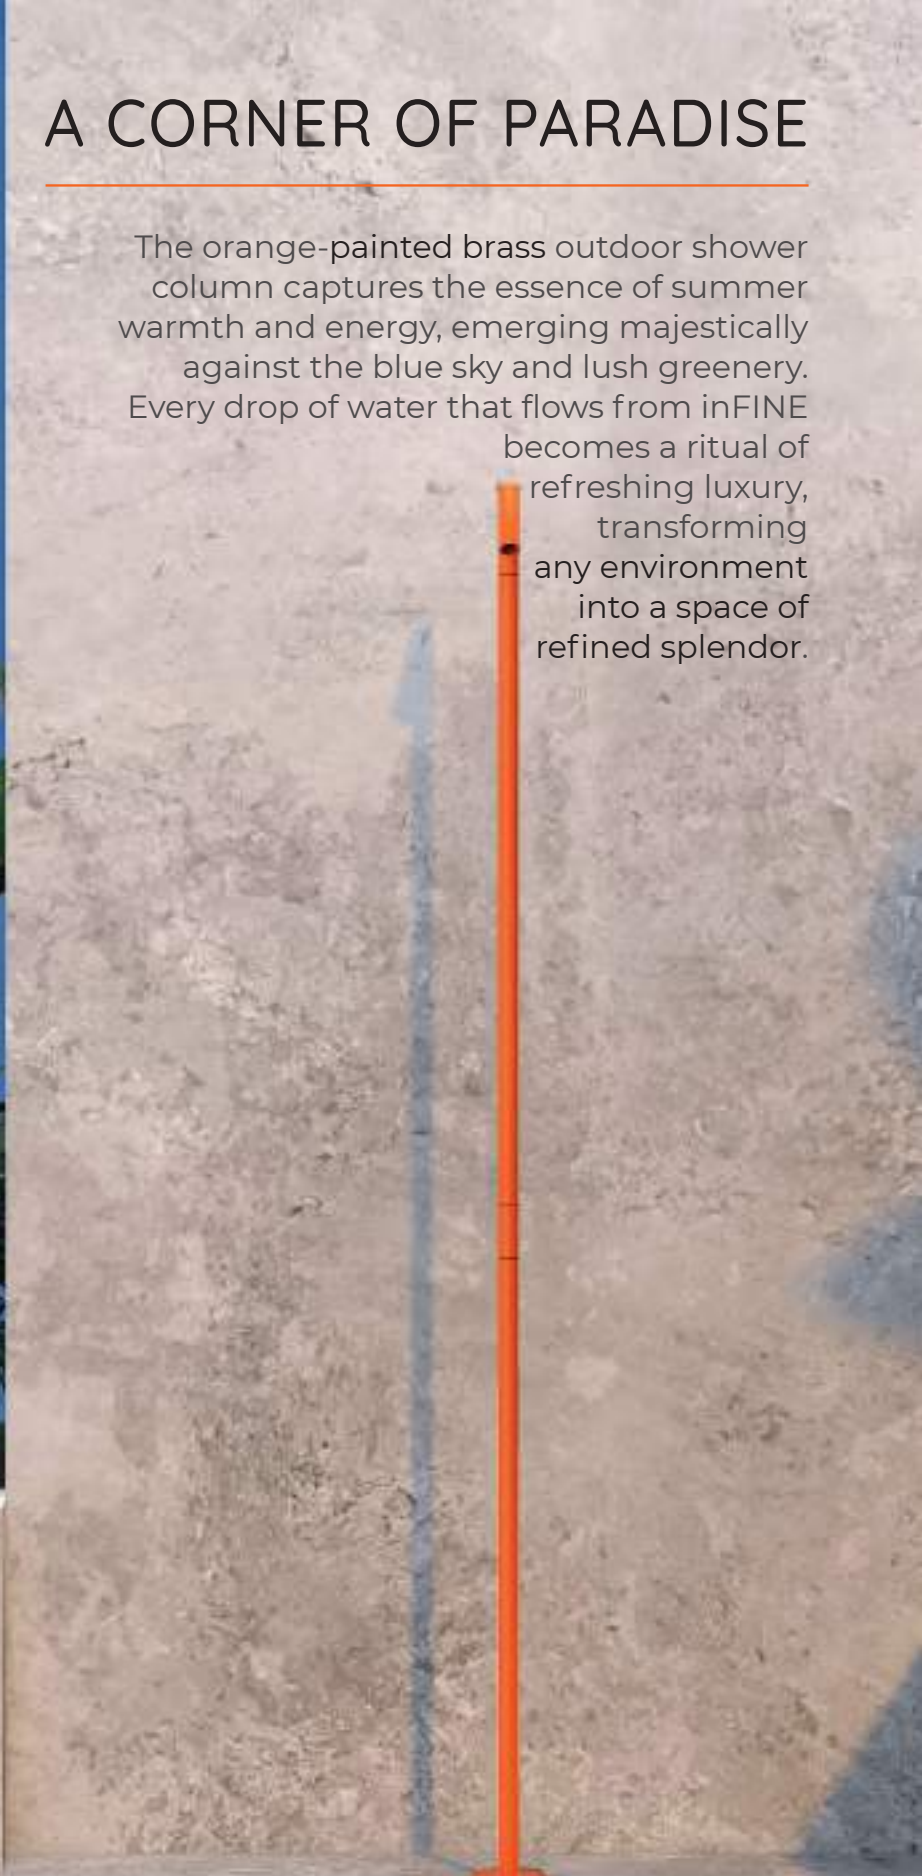

# A CORNER OF PARADISE

---

The orange-painted brass outdoor shower column captures the essence of summer warmth and energy, emerging majestically against the blue sky and lush greenery.

Every drop of water that flows from inFINE becomes a ritual of refreshing luxury, transforming any environment into a space of refined splendor.

# BOLD COLORS

---

Blending functionality and design effortlessly, inFINE becomes the finishing touch that completes the aesthetics of a refined and elegant environment.

With its bold colors, it perfectly complements modern, minimalist decor.

# NO WAIVER

---

Placed aboard a yacht, inFINE offers a versatile solution for every need. Its quick release feature becomes an invaluable ally when sailing, ensuring a ready-to-use water source at all times.

When the anchor is dropped, you can enjoy unparalleled comfort. Thanks to the progressive mixer, you can adjust the desired temperature for a relaxing shower.

To install inFINE on your boat is to ensure instant access to water, providing convenience on every marine adventure.

# DIVE IN AND THINK OF NOTHING ELSE

---

Seeking adventure and comfort, stainless steel inFINE blends harmoniously with its surroundings.

With a glimpse of the open sea and the sound of waves in the background, inFINE offers more than just a rejuvenating shower.

It is the meeting point between the desire to explore the unknown and the need to regain one's balance. Under bright sunshine or twinkling stars, inFINE becomes the perfect companion to embrace luxury and adventure. Installed on your boat, it is the bridge between your explorer spirit and unparalleled comfort, always at your fingertips.
